This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

JOHN W. TORREY,

ACCOUNTANT IN THE PHILADELPHIA BANK.

PHILADELPHIA:

J. B. LIPPINCOTT & CO.

1857.

Math 628.57

HARVARD COLLEGE LIBRARY
SHELDON FUND
JULY 10, 1940

Entered according to Act of Congress, in the year 1857, by
JOHN W. TORREY,
in the Clerk's Office of the District Court of the United States for the Eastern District of Pennsylvania.

EXPLANATORY.

IT is usual, when the principal is composed of dollars and *cents*, to reckon 50 cents and upward as a whole dollar, and to disregard all cents less than 50.

Banks generally reduce time to days, (including both the day on which a loan is made and the day on which it becomes due,) and count interest thereon at the rate of 1 per cent. for 60 days. At the same rate all the DAY-TABLES in this book are calculated. In every table the principal and interest are designated at the head of each column, the interest being placed next to its proper principal, and taking its denomination from the principal. If the principal be so many DOLLARS, the interest is also DOLLARS and decimal parts of a dollar. If the principal be so many CENTS, the interest must also be called CENTS and decimals of a cent.

The tables, being calculated at 1 per cent. for sixty days, will be found *absolutely correct*, except where the terminal figure is 3 or 8, which to be perfectly correct should be $\frac{1}{3}$ *more*,—*i.e.* $3\frac{1}{3}$ and $8\frac{1}{3}$. Or where the terminal figure is 7 or 2, which to be perfectly correct should be $\frac{1}{3}$ *less*,—*i.e.* $6\frac{2}{3}$ and $1\frac{2}{3}$ respectively.

From these remarks are deduced the following Rules for calculating interest.

CASE I.

To find the interest for sixty days on any number of dollars.

Rule. Point off two figures on the right hand for cents: the remainder will be the dollars of the interest.

Thus, for 60 days the interest on 2162 dollars is 21 dollars 62 cents.

By this rule, the interest for 120, 180, or any other multiple of 60 days is readily found.

CASE II.

To find for any number of days within the compass of these tables the interest on any number of dollars less than 100.

Rule. Turn to the proper table of days, and, opposite the equivalent number of cents in the principal column, read off the interest as cents and hundredths of a cent. Thus, for 110 days the interest of \$25=2500 cents is $45\frac{83}{100}$ cents.

CASE III.

To find for any number of days within the compass of these tables the interest on hundreds of dollars up to \$10,000.

Rule. In the proper table, opposite the principal, read the interest as dollars and decimal parts of a dollar. Thus, for 110 days the interest of \$2700 is \$49.50.

Case IV.

To find for any number of days within the compass of these tables the interest on any number of dollars between $100 and $10,000.

Rule. Having found the interest of the hundreds of dollars by Rule III., and the interest of the balance by Rule II., add the two items of interest together. Thus, for 110 days the interest on $2725 is as above,—

Principal.	Interest.
$2700.....	$49.50
25.....	$45\frac{83}{100}$
$2725	$49.95\frac{83}{100}$ say, $49.96.

Any expert accountant can make the above combination, or any other combination up to $10,100, without putting pen to paper, by merely placing a finger of each hand at the two sums to be added, and making the addition mentally.

When the time exceeds 136 days, (the limit of these tables,) find the interest by Rule I. for such a number of days as will bring the time within the compass of the tables.

Thus, the interest of $2316 for 192 days is,—

for 60 days, $23.16 by Rule I.
" 132 " 50.95 by the tables.
" 192 " $74.11

Objection has been made to the use of combination-tables, because the result of the combination oftentimes shows an error of a cent, although the tables themselves are correct. This objection cannot lie against this book, there being in the calculation of any sum up to $10,100 only two items of interest to be combined, the maximum of error in the one being $\frac{1}{2}$ of a cent, and in the other $\frac{1}{100}$ of a cent.

As it is customary to reject in interest all fractions of a cent less than $\frac{1}{2}$ and to reckon fractions of $\frac{1}{2}$ cent and upward a whole cent, results in strict conformity to this custom may be obtained in any combination where the interest by Rule III. terminates in 7 or 2 cents, by counting all fractions of a cent to be added, from .83 upward, as a whole cent, and where, by the same rule, the interest terminates in 3 or 8 cents, reckoning .17 and upward as a whole cent. If, however, this rule should be neglected, the error in any combinal by the ordinary mode will never reach $\frac{1}{2}$ of a cent.

Interest perfectly accurate may be obtained by substituting for the terminals 7, 2, 8 and 3, whenever they occur, their exact value, $6\frac{2}{3}$, $1\frac{2}{3}$, $8\frac{1}{3}$ and $3\frac{1}{3}$, as noted above. Great care has been taken both in the calculation and revision of this little book. Should any have a doubt of its accuracy, their scrutiny is invited, and a reward of Fifty Dollars is hereby offered for the detection of an error of a $\frac{1}{2}$ cent in any of the calculations in the book.

LAW REPORTS.

SUPREME COURT—CHAMBERS.

BARNARD, J.

Injunction Against the Mariposa Company.

Thomas S. Fisk *agt.* The Mariposa Company and its Trustees, James Hoy, Morris Ketchum, George Opdyke, S. W. Park and John C. Fremont.—On motion of the plaintiff's counsel, John T. Cochran, Esq., an injunction was granted restraining the Mariposa Company and its trustees from issuing or negotiating bonds of the company.

The plaintiff claims that on the organization of the Company, the Trustees issued bonds to the amount of $1,500,000, and received that amount in cash therefor. That the net earnings of the estate as shown, from the first day of January, 1863, to the first day of June, 1863, was at the rate of $50,000 per month. Since which last mentioned date a much larger amount could and would have been realized, it is claimed, had the said Trustees not been guilty of the grossest negligence and mismanagement. That the expenses of working the mines have been of the ordinary character, and that there have been no extraordinary risks or losses.

It is further alleged that the trustees have spent or exhausted the whole of said $1,500,000, and have created a floating debt of $500,000 in addition, and estimate that it will amount to $700,000 by the first of July next.

The plaintiff also charges that the trustees, in violation of law and in fraud of the rights of the stockholders, are about to issue bonds to the amount of about $2,000,000, and to sell them at less than their par value; and in order to pay the same, they intend to issue stock to be exchanged for said bonds.

It is also further alleged in the complaint that the said trustees intend to become the owners of the said bonds, at a greatly reduced value, and then to have stock issued to lift the said bonds at their par value. The court granted the injunction as before stated.

LAW REPORTS.

SUPREME COURT—CHAMBERS.

BARNARD, J.

Injunction Against the Mariposa Company.

Thomas S. Fisk *agt.* The Mariposa Company and its Trustees, James Hoy, Morris Ketchum, George Opdyke, S. W. Park and John C. Fremont.—On motion of the plaintiff's counsel, John T. Cochran, Esq., an injunction was granted restraining the Mariposa Company and its trustees from issuing or negotiating bonds of the company.

The plaintiff claims that on the organization of the Company, the Trustees issued bonds to the amount of $1,500,000, and received that amount in cash therefor. That the net earnings of the estate as shown, from the first day of January, 1863, to the first day of June, 1863, was at the rate of $50,000 per month. Since which last mentioned date a much larger amount could and would have been realized, it is claimed, had the said Trustees not been guilty of the grossest negligence and mismanagement. That the expenses of working the mines have been of the ordinary character, and that there have been no extraordinary risks or losses.

It is further alleged that the trustees have spent or exhausted the whole of said $1,500,000, and have created a floating debt of $500,000 in addition, and estimate that it will amount to $700,000 by the first of July next.

The plaintiff also charges that the trustees, in violation of law and in fraud of the rights of the stockholders, are about to issue bonds to the amount of about $2,000,000, and to sell them at less than their par value; and in order to pay the same, they intend to issue stock to be exchanged for said bonds.

It is also further alleged in the complaint that the said trustees intend to become the owners of the said bonds, at a greatly reduced value, and then to have stock issued to lift the said bonds at their par value. The court granted the injunction as before stated.

A NEW AND COMPLETE

Gazetteer of the United States,

EDITED BY T. BALDWIN AND J. THOMAS, M.D.

WITH

A NEW AND SUPERB MAP OF THE UNITED STATES,

ENGRAVED ON STEEL.

Above Twelve Hundred Pages, Octavo.

The Publishers take pleasure in announcing the completion of this, the most elaborate, comprehensive, and perfect Gazetteer of the United States, that has ever issued from the press. In its preparation, no considerations of expense or labor have been allowed to interfere with a work designed to be as perfect as possible in every department, and in all of its details. Nor have the successive issues of other Gazetteers, hurried through the press to claim the market, tempted the publishers to offer their book before all the ample census of 1860, and other material in the hands of the editors, were fully digested and accurately arranged.

When this Gazetteer was first announced, 800 pages, or, at the most, 900, were designed as the limit of the book. But so vast was the amount of matter accumulated through the personal labors of the editors and their assistants, as well as through the active efforts of several thousand correspondents in all parts of the United States, the work has swelled to near 1300 pages. The amount of new matter which it contains, all of a recent character, is very large, and in many instances embraces statistics and populations to 1863. This gives it an intrinsic value over every other work of the kind in existence.

We therefore offer our Gazetteer confidently, as the only complete and thoroughly reliable Gazetteer of the United States yet published. Price, four dollars.

THE TWO ROADS,

OR, THE RIGHT AND THE WRONG.

BY JAMES KNORR

IN ONE VOLUME, 12MO

REPORT OF A GEOLOGICAL SURVEY

OF

WISCONSIN, IOWA, AND MINNESOTA,
